

Bird Banger By Bird Control Products: Your Premier Bird Deterrent Solution

Efficient, Eco-Friendly, Effective

Introducing the **Bird Banger**, the innovative bird deterrent device designed to safeguard your crops efficiently and sustainably. Utilizing a loud explosion noise driven by eco-friendly LPG, this device effectively keeps birds and pests at bay, ensuring the protection of your crops.

Key Features:

- **Solar-Powered Efficiency:** Say goodbye to costly battery replacements! Our solar-powered unit keeps the Bird Banger operational without the need for expensive batteries, ensuring continuous, cost-effective protection.
- **Sturdy and Weather-Resistant:** Designed to endure, the Bird Banger stands firm even in strong winds, thanks to its robust construction which guarantees dependability through all seasons.
- **Extended LPG Duration:** Enjoy up to 6 weeks of operation from each LPG bottle, adjustable via customizable timer settings and firing frequencies to match your specific requirements, reducing the need for frequent maintenance.
- **Expansive Coverage:** With the capability to cover up to 5 hectares, the Bird Banger is ideal for protecting large areas like fields and paddocks from avian pests.
- **Portable and Convenient:** Easily transportable, this unit can be moved and set up in different locations on your property, providing flexible and targeted pest control.
- **Easily Programmable:** Start and finish times adjusted by 2 control knobs. Set the bang count rotary switch and you're all set two go.

Advanced Programmable Control:

- **Customizable Firing Modes:** Select your number of bangs per hour from one of the three programmable modes (up to 30 bangs per hour)
- **Safety Tilt Sensor:** Equipped with a tilt sensor, the Bird Banger ensures safety by preventing accidental firing if the device is knocked over, mitigating the risk of fire.

Locally Produced and Supported:

- **Proudly Made in Ashburton, New Zealand:** The Bird Banger is designed, manufactured, and assembled locally, ensuring high-quality craftsmanship and swift repair services directly from the source.

Ideal for:

- Vineyards
- Orchards
- Crop Fields
- Airports

Invest in Protection, Ensure Production

Protect your investment with the Bird Banger, which not only secures your land from birds and pests but also reduces operational costs with its solar-powered and fuel-efficient design. This cost-effective solution is essential for any agricultural endeavour looking to enhance productivity.
